|    | Encastadora /crimpadora i punteres | CRIMPER and END TERMINALS        | Encastar terminals a cables pelats<br>(PUSH END TERMINALS INTO BARE WIRES)                                                 |
|    | Serra d'arc o de metall            | HACKSAW                          | Serrar metall<br>(CUT THROUGH METAL)                                                                                       |
|    | Martell                            | HAMMER                           | Colpejar els claus (HIT NAILS)                                                                                             |
|    | Tornavís<br>Pla / d'estrella       | FLAT HEAD / PHILLIPS SCREWDRIVER | Collar(TIGHTEN) i afloixar(LOOSEN) visos(SCREWS) i cargols(BOLTS)                                                          |
|  | Claus Allen                        | ALLEN WRENCHES                   | Collar(TIGHTEN) i afloixar(LOOSEN) ALLEN BOLTS                                                                             |
|  | clau de tub (o de femella)         | NUT DRIVER                       | Collar(TIGHTEN) i afloixar(LOOSEN) femelles (NUTS) o cargols(BOLTS)                                                        |
|  | Clau de vas (o de got)             | SOCKET WRENCH                    | Collar(TIGHTEN) i afloixar(LOOSEN) femelles (NUTS) o cargols(BOLTS)                                                        |
|  | clau dinamomètrica                 | TORQUE WRENCH                    | Collar(TIGHTEN) i afloixar(LOOSEN) cargols(BOLTS) aplicant (APPLYing) una quantitat de força ajustable (ADJUSTABLE TORQUE) |
|  | Cinturó d'eines                    | TOOL BELT                        | Portar les eines a sobre (CARRY WITH YOU) i agafar i deixar les eines ràpidament (GRAB and RELEASE TOOLS FAST)             |

|                                                                                     |                  |                   |                                                                                                                                                  |
|-------------------------------------------------------------------------------------|------------------|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
|     | Cinta aïllant    | ELECTRICAL TAPE   | Aïllar cables elèctrics (INSULATE ELECTRICAL WIRES) and other materials that conduct electricity                                                 |
|    | Cinta americana  | DUCT TAPE         | segellar (SEAL) conductes d'aire (AIR DUCTS) i molts altres usos (AND MORE)                                                                      |
|    | Clau, punta      | NAIL              | (JOIN two pieces of wood TOGHETER) Ajustar, unir dues parts de fusta                                                                             |
|    | Vis              | SCREW             | collar (FASTEN two or more parts together). Té <b>rosca</b> externa (THREAD) i <b>punta</b> (TIP) per roscar-se en un material <b>tou</b> (SOFT) |
|   | Cargol           | BOLT              | collar (FASTEN two or more parts together) amb l'ajuda de la femella (NUT). Té rosca externa (THREAD)                                            |
|  | Femella          | NUT               | collar (FASTEN two or more parts together). Té <b>rosca</b> interna (THREAD)                                                                     |
|  | Trepant          | DRILL             | Fer forats (MAKE HOLES) Used with drill bits.                                                                                                    |
|  | Broques          | DRILL BITS        | Fer forats (MAKE HOLES) in different materials. Used with a drill.                                                                               |
|  | Broca salomònica | WOOD AUGER (BIT)  | Perforar fusta (DRILL INTO WOOD)                                                                                                                 |
|  | Broca de corona  | HOLE SAW BIT      | Fer un forat gros (MAKE A BIG HOLE)                                                                                                              |
|  | Broca esgraonada | STEPPED DRILL BIT | Fer forats de diferents mides en metall. MAKE HOLES of different SIZES on metal.                                                                 |

|                                                                                     |                                           |                   |                                                                                                   |
|-------------------------------------------------------------------------------------|-------------------------------------------|-------------------|---------------------------------------------------------------------------------------------------|
|    | Serra de vaivé                            | RECIPROCATING SAW | Serrar (SAW)                                                                                      |
|    | Serra de vogir                            | JIGSAW            | Serrar (SAW)                                                                                      |
|    | punxonadora                               | STUD PUNCH        | perforar (CUT A HOLE) a la xapa o pladour (on METAL or DRYWALL)                                   |
|    | doblegadora de tubs                       | CONDUIT BENDER    | doblegar (TWIST or BEND) tubs (CONDUITS)                                                          |
|    | Nivell                                    | LEVEL             | Assegurar-te que el que instal·les està recte. (MAKE SURE you INSTALL things STRAIGHT)            |
|  | Guia Passa-cables                         | FISH TAPE         | Passar cables elèctrics per les parets (PUT ELECTRICAL WIRES IN WALLS)                            |
|  | Màquina d'etiquetar                       | LABELLING MACHINE | Marcar cables i altres objectes. (MARK WIRES AND OTHER OBJECTS)                                   |
|  | Multímetre                                | MULTIMETER        | Calcular diverses mesures elèctriques. (CALCULATE different electrical magnitudes)                |
|  | Pinça Amperimètrica                       | CLAMP METER       | Abraçar-la (CLAMP it) around a <b>live wire</b> to MEASURE the current it's carrying (que porta). |
|  | Provador de preses de corrent (o endolls) | PLUG-IN ANALYZER  | Assegurar-se (MAKE SURE) a circuit is correctly installed and SAFE (segur)                        |
